January 11, 2021

Table 10: Gross Spreads Continue to Remain at 7% on Moderate-Size Deals, 2001-2020

Table 11: Mean and Median Gross Spreads and Number of Managing Underwriters, 1980-2020

Table 11a: Gross Spreads (Equally Weighted and Proceeds-Weighted), 1975-2020

Table 13: IPO Auctions in the U.S., 1999-2020

Table 13a: Direct Listings in the U.S., 2018-2020

Table 10**Gross Spreads Continue to Remain at 7% on Moderate-Size Deals**

Here are the numbers for 2001-2020 for U.S. operating company IPOs raising more than \$25 million (\$2011), using the screens in Table 1. Adjusting for inflation, the \$25-100 million proceeds category would be \$29-114 million in 2019. Proceeds numbers do not include overallotment shares.

Panel A: Book building deals

		Proceeds Category	
		<u>\$25-100 million (inflation-adjusted in 2011 \$)</u>	<u>more than \$100 million (2011 \$)</u>
<7%	3.1% (27)		48.4% (598)
=7%	95.4% (841)		51.0% (629)
>7%	1.5% (13)		0.6% (7)
Total	100% (881 IPOs)		100% (1,234 IPOs)

Panel B: Auction deals

		Proceeds Category	
		<u>\$25-100 million (inflation-adjusted in 2011 \$)</u>	<u>more than \$100 million (2011 \$)</u>
<7%	55.6% (5)		88.9% (8)
=7%	44.4% (4)		11.1% (1)
>7%	0% (0)		0.0% (0)
Total	100% (9 IPOs)		100% (9 IPOs)

So, with a few exceptions (some of these are Canadian firms, and others were taken public by WRHambrecht using auctions), 7% gross spreads for moderate-size IPOs are as entrenched as ever. Indeed, in 1999-2000, deals above \$100 million increasingly had 7% spreads, and this has stuck—in 2001-2020 51.0% of large IPOs also had spreads of exactly 7%. In contrast, during 1997-1998 only 53 of 158 large IPOs (33.5%) had a gross spread of exactly 7%. See Hsuan-Chi Chen and Jay R. Ritter's "The Seven Percent Solution" in the June 2000 issue of the *Journal of Finance* for evidence from earlier years, available at

<https://site.warrington.ufl.edu/ritter/files/2016/01/The-Seven-Percent-Solution-2000-06.pdf>

Table 11 (updated Dec. 28, 2020)

Mean and Median Gross Spreads and Number of Managing Underwriters, 1980-2020

IPOs with an offer price below \$5.00 per share, unit offers, ADRs, closed-end funds, REITs, bank and S&L IPOs, energy limited partnerships, and firms not listed on CRSP within six months of the offer date are excluded. EW is equally weighted and PW is proceeds-weighted. The fraction=7% is the percentage of IPOs with a gross spread equal to exactly 7%. The number of managing underwriters is the sum of both leads and co-managers. The decrease in the fraction of IPOs with a 7% spread in 2001-2002 is due to the smaller fraction of deals with proceeds of less than \$150 million. In 2008 (Visa with a spread of 2.8% on a \$17.9 billion IPO), 2010 (General Motors with a spread of 0.75% on a \$15.8 billion IPO), 2012 (Facebook with a 1.1% spread on a \$16 billion IPO), and 2019 (Uber Technologies with a spread of 1.3% on an \$8.1 billion IPO), a higher fraction of IPOs were mega-deals with a gross spread far below 7%. UW is Underwriter.

Year	Number of IPOs	Gross Spreads				Fraction with Multiple Bookrunners	Number of Managing UWs

Table 13 (updated Dec. 28, 2020)

IPO Auctions in the U.S., 1999-2020

The average first-day return on WRHambrecht's 19 IPO auctions has been 12.6%. For the 22 auction IPOs, including those by other underwriters, the average first-day return has been 12.5%. For IPO auctions for which WRHambrecht was the bookrunner, the numbers are as follows:

Name of IPO (ticker)	Date of IPO	Gross Spread	Gross Proceeds	First-day Return
1999: (3 out of 476 IPOs)				
Ravenswood Winery (RVWD)	19990408	4.00%	\$10.5 million	3.62%
Salon.com (SALN)	19990622	5.00%	\$26.25 million	-4.76%
Andover.net (ANDN)	19991208	6.50%	\$72.0 million	252.08%
2000: (1 out of 380 IPOs)				
Nogatech (NGTC)	20000518	6.50%	\$42.0 million	-21.58%
2001: (2 out of 79 IPOs)				
Peet's Coffee (PEET)	20010125	6.50%	\$26.4 million	17.25%
Briazz (BRZZ)	20010502	6.00%	\$16.0 million	0.38%
2002: (1 out of 66 IPOs)				
Overstock.com (OSTK)	20020529	4.00%	\$39.0 million	0.23%
2003: (2 out of 63 IPOs)				
RedEnvelope (REDE)	20030925	6.00%	\$30.8 million	3.93%
Genitope (GTOP)	20031029	7.00%	\$33.3 million	11.11%
In 2003, WRHambrecht was also the joint bookrunner with JP Morgan on the Sunset Financial Resources IPO that did not use an auction.				
2004: (1 out of 173 IPOs)				
New River Pharmaceuticals (NRPH)	20040805	7.00%	\$33.6 million	-6.25%
In 2004, WRHambrecht was a co-manager on the Google auction IPO for which CSFB and Morgan Stanley were the bookrunners. The IPO climbed 18.04% on its first day of trading.				
2005: (5 out of 159 IPOs)				
B of I Holding (BOFI)	20050315	6.00%	\$35.1 million	0.00%
Morningstar (MORN)	20050502	2.00%	\$140.83 million	8.38%
CryoCor (CRYO)	20050714	7.00%	\$40.8 million	-1.18%
Avalon Pharmaceuticals (AVRX)	20050928	7.00%	\$28.8 million	-5.10%
Dover Saddlery (DOVR)	20051117	5.00%	\$27.5 million	2.50%
2006: (2 out of 157 IPOs)				
Traffic.com (TRFC)	20060125	6.00%	\$78.6 million	1.25%
FortuNet (FNET)	20060131	4.50%	\$22.5 million	0.56%

2007: (2 out of 159 IPOs)

Interactive Brokers Group (IBKR)	20070504	1.88%	\$1,200.4 million	4.30%
Clean Energy Fuels (CLNE)	20070525	5.85%	\$120.0 million	0.33%

In 2007, WRHambrecht was a co-manager on the Netsuite auction IPO for which Credit Suisse was the bookrunner. The IPO climbed 36.54% on the first day of trading.

2008: (0 out of 21 IPOs)

In 2008, WRHambrecht was a co-manager on the Rackspace Hosting auction IPO for which Credit Suisse, Goldman Sachs, and Merrill Lynch were joint bookrunners. The IPO dropped 19.92% on its first day of trading.

2009: (0 out of 41 IPOs)**2010: (0 out of 91 IPOs)****2011: (0 out of 81 IPOs)****2012: (0 out of 93 IPOs)****2013: (1 out 158 IPOs)**

Truett-Hurst Inc (THST)	20130619	7.00%	\$16.2 million	-5.33%
-------------------------	----------	-------	----------------	--------

2014: (0 out of 206 IPOs)**2015: (0 out 118 IPOs)****2016: (0 out of 75 IPOs)****2017: (0 out of 106 IPOs)****2018: (0 out of 134 IPOs)****2019: (0 out of 112 IPOs)****2020: (3 out of 165 IPOs)**

Unity Software (U)	20200918	4.75%	\$1,300.0 million	31.4%
DoorDash (DASH)	20201209	2.40%	\$3,366.0 million	85.8%
Airbnb (ABNB)	20201210	2.12%	\$3,490.0 million	112.8%

Financial press articles stated that Unity Software required that all indications of interest submitted to the lead-left underwriter (Goldman Sachs) had to include a price as well as quantity of shares requested. Bids at multiple prices were permitted. All bids at or above the offer price received shares, but Unity reserved the right to make non-pro rata allocations among the winning bidders. DoorDash (Goldman Sachs) and Airbnb (Morgan Stanley) used similar procedures. All raised the offer price substantially, but still left huge amounts of money on the table.

WR Hambrecht has also been a bookrunner on several other IPOs that did not use an auction. For example, on 20150415, they did a \$76 million best efforts IPO of Xbiotech (XBIT), which increased 22.37% on the first day of trading, on 20170630 they did a \$12.0 million IPO for ShiftPixy, and on 20170921 they did a \$19.1 million IPO for Arcimoto.

Table 13a (updated January 11, 2021)
Direct Listings in the U.S., 2018-2020

With direct listings, no shares trade hands at the reference price. Instead, there is typically a large block trade at the open. The first-day return is thus calculated from the open to the closing price. With traditional IPOs, including auctions, the first-day return would be computed from the offer price to the close. The returns calculated in these two manners reflect the returns earned by buyers who bought from the issuer and selling shareholders. The July 2019 Nasdaq listing of iHeartMedia (IHRT) is not included because the stock was traded OTC beforehand.

Thryv Holdings has unusually low volume on the first day of trading, only 9,569 shares (this number has been confirmed with the company as correct). It had much higher volume on the second day, 208,916 shares, with a price jump to a close of \$14.39. The prospectus for Thryv Holdings reports 30,829,145 shares outstanding, giving it a market cap at the opening price of \$430 million, considerably less than the unicorns doing direct listings.

In the bottom panel, the last column is a measure of intraday volatility on the first day of trading. The average volatility for these five direct listings is about the same as that on the IPOs of similar companies. High, low, and closing prices, as well as trading volume, come from BigCharts.Marketwatch.com.

Name of IPO (ticker)	Date of Listing	Prices			First-day Return
		Reference	Open	Close	
2018:					
Spotify Technology (SPOT)	20180403	\$132.00	\$165.90	\$149.01	-10.2%
