Company Description
As the pre-eminent global financial services company, Citi boasts over 200 million diverse clients – including some of the most influential names in the business world. The benefits of our size add up to a lot more than a collection of statistics. The proportions of our business place us in a unique and eminent position, because – with over 200 years of experience – we’ve brought together some of the world’s most successful and diverse financial companies to form one Citi. Our position holds unparalleled strength as Citi has presence in over 100 countries in four regions including North America, EMEA (Europe, Middle East and Africa), Asia-Pacific, and Latin America.

Program Description
Our six-month internship program offers a unique opportunity for students to gain meaningful work experience in a very competitive environment at a global organization. Candidates will be able to learn about the banking business and develop valuable skills in their area of interest. Interns selected for a position will have a chance to be part of the Latin America headquarters office and gain significant exposure at a fortune 100 company. This six-month internship program is designed to provide interns with real-world experience working on major projects that have direct impact on the business. Although actual internship positions have wide variety of work type, the opportunities available can largely be categorized into the seven following areas:

1. Consumer Banking
Found in more than 100 countries, Citibank delivers a wide array of banking, lending and investment services to individual consumers, as well as to small businesses with up to $10 million in annual sales. We also offer a full range of financial services products to serve the needs of small and large corporations, governments, institutions, and individual investors. Our Branch Network is composed of local offices and complemented by our electronic delivery systems, including ATMs, the Internet and our mobile banking platform.

2. Wealth Management
Citi Personal Wealth Management provides personalized wealth management for some of the world’s most successful individuals and their families. We offer expert advice on everything from investments to wealth transfer planning. Our clients rely on us to look after their financial world with successful and comprehensive investment strategies as well as open product architecture.

3. Treasury and Trade Solutions (TTS)/ Securities and Fund Services (SFS)
Citi Treasury and Trade Solutions provide integrated cash management and trade finance services to multinational corporations, financial institutions, and public-sector organizations across the globe. A few services of TTS include card solutions, channel services, liquidity management, payment management, and receivables solutions. Citi’s Securities and Fund Services provide customized solutions that support the diverse investment and transaction strategies of investors, issuers, and intermediaries worldwide. Offering innovative solutions, SFS allows Citi to help clients meet the challenges of issuing, managing, and distributing financial products and services in today’s complex and competitive marketplace.

4. Markets
Citi Markets provides world-class financial products and solutions across a broad range of asset classes through its underwriting, sales and trading, distribution, and research capabilities. Products offered include equities, commodities, credit, futures, foreign exchange, emerging markets, G10 rates, municipals, prime finance, and securitized markets.
5. Finance
Finance is responsible for supervising all financial reporting and controls that allow the flow of capital in and out of Citi. Finance works as a strategic partner to each part of the firm, and particularly closely with the global management teams. A range of specific functions include treasury, strategy, business development, planning and analysis, risk management, review, and controllers.

6. Operations and Technology
Operations and Technology (O&T) is tightly integrated with Citi’s businesses. With 110,000 employees in 102 countries, O&T plays a central role in driving value for the firm and its clients. It provides a foundation for technology, processes, and people that enable Citi to achieve its day-to-day operational and long-term growth goals.

7. Human Resources
Human Resources drives all people-management aspects of Citi’s strategy by providing HR advice, HR policies, reward and retention programs, employee relations management, resource planning, compensation and benefits, and learning & development. This concerted vision aligns the Human Resources strategy with the business strategy to help ensure that Citi has the best resources.
